SUBJECT INDEX OF ORIGINAL PAPERS

ACETATE, isotope dilution to measure, 926*
Alfalfa hay,
  bloat effects of plant mucin in, 915*
  digestibility of, by steers, 935*
    effect of starch on, 849
  for calves, 651
  for heifers, 929*
  for milk production, 935*
    pelleted, 1373
American Dairy Science Association, Annual Meeting,
    attendance at, 891
    editor's report at, 2023
    54th, 1413
    Journal Management Committee report at, 2021
  officers and committees of, 214
  symposium authorized by,
    heat and vacuum treatment of milk, 557
    humanistic and social studies, 371
    pesticide and antibiotic control, 192
Antibiotics,
  aureomycin—see chlortetracycline
  bacitracin,
    preserving silage with, 392*, 929*
  chlortetracycline,
    in calves, 658, 671, 856, 1712w
    in rations, 1203
    on milk production, 1740w
  erythromycin, in calves, 1712
  hygromycin, in calves, 1712
  penicillin,
    in milk, 1742w
    on organisms, 1391
    on phosphatase, 898*
  terramycin, on organisms, 1391, 1659

BOVINE SEMEN,
  effects on,
    of arabinose, 89
    of diluent, 83
    of fructose, 67
    of hormone, 74
    of metabolism, 67, 1216, 1227, 1320, 1325, 1806
    of promazine and chlorpromazine, 932*
  effects on constituents of,
    aeration, 937*
  fertility of frozen, 94, 520
  freezing of, 1209
  liquid nitrogen in, preservation of, 932*
  preservation of, by gas-pressure, 931*
  pyruvate of—alanine, use of, in, 637
  responses of, physiological, 394*
  spermatogenesis in relation to, 938*
  spermatozoa activity, 932*
    ampules for, 365
    carnosine production of, by, 938*
    characteristics of, 626
    coconut-milk-citrate extender for, 931*
    cooling effects on, 931*
    egg yolk, skimmilk-glycerol effects on, 931*
    epididymal ejaculates of, 937
      shocks of, 2003
    factors affecting, 1304
    fatty acid oxidation by, 938*
    glucose utilization by, 110
    glycolysis in, 937*
    lactic acid production by, 188
    light effects on, 937*
    oxygen consumption by, 1223
    Pasteur effect in, 932*
    with dyes, 1314
Breeding,
  artificial, effect on production, 1079
  bulls,
    fertility of, 394*, 938*
    life expectancy of, 939*
    sexual endurance in, 626
  butterfat production, factors in, 1159
  casein yield, inheritance in, 922*
  chromatin nuclei in somatic tissue, 922*
  crossbreeding, effect of,
    on growth rate, 607
    on milk and butterfat, 924*
  forage consumption, increase for, 878
  genetic relationships in, 621
  hemoglobin variance, inheritance of, 1147
  herd improvement in, 391*
  immunological effect on fertility, in, 100
  lactoglobulins, inheritance in milk, 922*
  milk yields, affected by, 924*
    hereditary factors in, 913
    inbreeding effects, goats, in 924*
  production testing in, 926*
  progeny testing in, 926*
  reproduction,
    effect of diethylstilbestrol on, 1351
    efficiency of, 1338
    reproductive tract, buffering of, in, 529
  selection index for, 1666
  sexual dimorphism in, 1330
  sire evaluation in, 394*
Butter,
  hardness of, 56, 899*
  judging of, 715
  low-melting fraction in, 1088
  monoglycerides in, 902*, 1913
  setting, influence of, 58
  spreadability of, 389s, 899*
Butterfat,
  by Babcock test, hydrolysis of, 1236
  crossbreeding, effect on yield of, 924*
  delta-decalactone from, 791
  determination of, 903*, 1255
  flavors, radiation-induced of, 468
  genetic and environmental variations of, 115
  growth-promoting value of, 1057
  glycerides, high melting in, 1651
  Holstein-Friesian, yield of, 123
  iodine numbers of, 902*
  ketones formation from, 49
  measured and calculated, 389s
  molecular distillation of, 49, 902*
  phosphatides, estimations in, 552, 904*
  photometric determination of, 1255
  production of,
    effect of N,N-diphenyl-*para*-phenylediamine on, 874
    factors affecting, 189, 1157
  protein interaction with, 894*

Abstracts of papers presented at:
* Annual Meeting.
s Southern Division Meeting.
w Western Division Meeting.

TeSa test, demonstration of, 942*
TeSa test, progress report in, 942*
triglycerides in, distribution of, 454

CALVES,
adrenalin, influence on blood constituents of, 166, 927
carbohydrate utilization by, 920*
carotene,
conversion to vitamin A by, 642
intake of, by, 1396
utilization by, 159
chlortetracycline, effects on, 658, 671, 859, 1712
esterase,
activity in, 920*
secretion of, in, 919*
fat digestibility of, 918*, 1815
fiber in feed for, 1877
hygromycin, effect on, 1712
iron for, 1970
milk,
filled for, 1552, 1562, 1569, 1580
limited for, 922*
replacers, effect of fat for, 918*
protein levels for, 919*
nutrition of, experimental errors for, 1398
pasture for, 1592
pepsin, effect on growth of, 666
renal function in, 1387
rumen of,
development in, 395*, 921, 1171, 1600
papillae development in, 921*
salts of fatty acids for, 1377
silage for, 651
starters for, 153
stilbestrol,
effect on, 1966
influence on growth of, 153
sugar utilization by, 920*
thyroid metabolism in, 1821
Vitamin A for Holstein, 501
Vitamin E for Holstein, 501
weight gains for, 923*
Cheese,
Blue Mold,
freeze-drying of, 908*
mechanical equipment for, 1096
monoglycerides in, 1913
Cheddar,
coagulation of milk for, 901*
composition and firmness of, 907*
flavor chemistry in, 207
freeze-dried, 908*
judging of, 715
manufacturing equipment for, 907*
milk, reconstituted for, 908*
radioactive casein in ripening of, 998
redox measurements of, 901*
rennin in, 901*
ripening in, spectrophotometric measurements of, 264
S. aureus in, 1032
ultrasonics for ripening of, 902*
whey of,
plant nutrients from, 1126
preserving, with hydrogen peroxide, of, 1119
proteins, nitrogen determinations of, 28
vitamin B_{12} from, 1927
Cottage
biacetyl content in, 1045
creaming, effect on quality of, 909*, 1917
cultures for, 2009
curd firmness test for, 553, 866
developments in, recent, 2005
flavor improvement of, 809, 909*
freeze-dried, 908*
freezing and thawing effects on, 908*
keeping quality of, 2014
lactic acid in, 909*
microbial flora, effect on, 910*
milk in, early lactation effects on, 910*
milk powder in, low-heat effects on, 908*
production problems with, 1246
skimmilk in,
curd tension of, 1792
heat effect on, 1020
staphylococci in, 816
spoilage prevention in, 1917
Streptococcus citrovorus in, 1917
yields, factors affecting, 2012
Cream,
lipolytic yeasts in, 905*
monoglycerides in, 1913
organisms in, 1045
Limburger,
carbonyl formation in, 901*

DAIRY CATTLE,
anestrus in, management of, 941*
bloat in,
blood pressure changes in, 915*
effect of saliva and plant mucins on, 915*
methemoglobin in, 914*
prevention of, 333
brucellosis, eradication in, 1888
butterfat of,
antibody production by Brucella antigen in, 916*
calculated and measured, 389*
calcium in,
determination, in serum, of, 872
versene in, 933*
metabolism of, 389*
calving intervals of, 298
carotene requirements for, 391*
caruncles, regression in, 941*
chromic oxide,
radioactive, for digestion studies in, 1359
colostrum, globulins in, from, 1401
cottonseed hulls, feeding value of, for, 353
cow pools for, 944
energy determinations, primers for, in, 934
estrogen for,
activity in milk of, 918*
measurements and assays in, 940*, 941*
treatment with progesterone, of, 940*
estrous cycle of,
fertility and, 1086
regulation, by oxytocin, of, 533, 543, 940*
fat, substitutes for, 1741*
farms, mechanization for, 944*
fecal output, with chromic acid, of, 346
feces, energy determinations in, of, 1995
feeding of, automatic units for, 943*
summer, for, 1495
fetus of, mummified, 312
gestation of, length of, 598
hay for, digestibility of, 144
herd management, standards for, 937*
Holstein-Friesian,
artificially and naturally sired, 315, 925*
birth weight and gestation of, 305
growth and first lactation in, 390*

hay and concentrate ratio for, 836
milk yield, persistency of, in, 923*
production of,
and body weight, 943
and test-day factors, 319
first lactation in, 924, 1932
indices in, 123
reproductive efficiency of, 512
roughage, weight gains on, 1698
steers, feeding of, 1741w
type ratings of, 925*, 1867
hormones, lactogenic, for milk secretion in, 918*
ketosis in, 705
effect on, of grain feeding, 170
lactation of,
antibodies from Brucella antigen in, 916*
dextrin and propionate response to, 933*
lipolysis in milk during, 1619, 1903
mammary cells, synthesis of in milk, in, 916*
growth of in mice, and pregnancy, 917*, 1198
mammary infusions in, 916*
metabolism of serine in, 1619
production, after calving, in, 923*
steroid secretion, in, 926*
mastitis in, 1740w
electrophoretic properties of proteins from, 698
metabolism of,
determination in, 686
equipment for, 934*
milk,
effect on fat composition of, on, 390*
yields of, 392*
milking, short-interval, of, 1724
orchard grass, forage for, 1675
pasture,
comparison of plants for, 137
efficiency of systems of, for, 1686
grain feeding for, 679
pelleting, effect on concentrate consumption of, by, 390*
pineapple plant, for, 1741w
production of, effect on,
of age factors, 824
of artificial breeding, 1079
of grazing systems, 679
of nutrition, 943*
of oxytocin, 918*
of protein-bound iodine, 327, 1718
of strip-grazing, 930*
progesterone, activity in, 1742w
effect on *Corpus luteum*, 939*
effect on spayed cows, 939*
ovaries of, 939*
proteins, with shelled corn for, 391*
rations, for,
concentrates to roughage ratio, 1070
digestibility and energy losses, 836
fiber effect on respiration, 1743w
records of, in DHIA, 391*, 942*, 1742w
renal function in, 545
roughage, ratio of concentrates for, 1070
utilization efficiency of, in, 915*
rumen metabolism, in,
acids in fat in, 1977
amino acids, deamination of, 395*
amylolysis in, 913*
bacterial activity in, 913*
cellulolytic, nutrition of, for, 1831
galactomannanase activity of, 912*
glucose, use of, for, 692
mixed culture effects of, 913*
propagation in, 712
beta-glucosidases in flora of, 1848
cod-liver oil, effects on, 1238
diethylstilbestrol, effects on, 1857
extracts, properties of, in, 127
fatty acids,
absorption of, in, 914*
efficiency of, in, 843
fermentation in, 1182
gas composition of, 912*
glucose, use of in, 692
methanogenesis of, 912*
redox in, 914*
salt, effects of on, 1600
soybean hulls, effect of in, 185
silage,
alfalfa for,
comparison with, in, 651
fermentation of, 393*
hay as beet pulp in, 1740w
heifers, 929*
losses of, in, 393*
bacitracin, as preservative for, 929*
corn and sorghum for,
calves, 930*
effect of supplements of, 929*
heifers, 394*
growth and production of, 1949
losses in silos of, 928*, 929*
millet and oats for, 390*
oats and peas for, 1740w, 1955
orchard grass, nutrient losses of, 1703
pasture and grass, interaction in, 930*
plastic covers for silos for, 928*
preservatives for, 1955
sodium fluoride, effect on, 1063
solids-not-fat, in Holsteins, Jerseys, Sindhi-Jerseys, 916*, 1132
sorghum for cows, 393*
soybean hulls, digestibility of, for, 185
strontium metabolism in, 1367
thyroid function in, 927*, 928*
twins, 1346
metabolism in, 1821
thyroidectomized rats, 1986
thyroxine, in blood of, 1606
uterus of, electrolytes in, 940*
water for, temperature effects of, 926*
yeast, effect on yield of milk for, 390*, 1742w
Diets, and heart disease, 1401

FORAGES,
acceptability of, 571
analysis of, 933*
breeding, increased consumption for, 878
brome grass, effect on flavor of, 936*
canary grass, with nitrogen fertilizer, for, 936*
digestibility of, effect of,
dry feed on, 935*
first-cut on, 936*
harvesting, utilizing for, 1101
nutritive value of, 277*, 489, 567
effect of chopping, on, 1394
effect of thyroidal I^{131} on, 928*
orchard grass, affected by nitrogen in, 934*
testing services for, Pennsylvania system of, 943*
utilization of, 574
in systems in South, 885

ICE CREAM
determination of sugars in, 898*

judging of, 715
photometric fat determination of, 900*

MILK
ascorbic acid, degradations from, 428
bacteria in,
inhibition of, 409
lipolytic, 389*, 1479
pasteurized, 388*, 1479
psychrophilic, 388
bulk tank, 1781
growth of, 905*
protein changes in, 894*
temperature effects on, 1097
resazurin interaction with, 1099
casein in,
alpha, sensitive fraction of, 894*, 1897
calcium phosphate complex in, 397
carbohydrate moiety of, 1463
caseinate fraction, voluminosity of, 227
colloidal particle sizes of, 761
complex of, 227
curd tension of, 39
cysteine in oxidized flavor of, 961
glyco-macropeptide in, 1881
heat effects on, 44
phosphoserine, phosphatase effect on, 1772
radioactive, in cheese ripening, of, 998
salt effects on coagulation of, 40, 41, 989
yield of, heredity influences on, 922*
chocolate in, consumer acceptance of, 1743*
composition of,
carrageen test for, 898*
chloride determination with silver electrode of, 900*
citric acid analysis of, 1885
consumer acceptance, affected by, 1743*
fat, photometric estimation of, 900*, 1255
fiber content, influence on, 180
magnesium determination for, 981
phospholipid analysis of, 767, 1450
fat globule membranes in, 904*
serum protein determinations of, 441
solids-not-fat, test for, 899*
review of literature on, 1
concentrated, origin of ammonia in, 448
browning reaction in, 945
fat stability, test for, 904*
grain formation in, 711
protein complex in, 895*
viscosity effects of, 898*, 910*, 911*
equipment, for high temperatures in, 1486, 1617
evaporators and dryers, new ideas for, 1410
flavor of,
chelating, effects on, 897*
copper effects on, 420, 780, 960
fatty acids, unsaturated, effects on, 896*
feed,
problems of, on, 560*
removal of, in, 896*
heat effects on, 1743*
oxidized, spontaneous, 961
xanthase oxidase, effects on, 1111
steam injection in, 895*
unclean, effect of brome grass on, 936*
foam-dried,
free fat in, 240
stability of, 911*
freezing point of, review of literature on, 1745
glycoproteins, carbohydrates of, 369
lactose in, analysis for, 1390
lipases from, 897*
lipases of,
lipases from, 897*
fatty acid production in, 903*
inhibition of, 409, 1903
substrates acting on, 1903
machine milking of, lye for inflations for, 1726
monoglycerides in, 1913
pasteurization of, 905*
viscosity of heated fractions in, 221
pesticides in, 192*
residues of, 196*
pipelines for,
air effects on, 476
cleaning-in-place, kinetics of, 1763
discoloration removal from, 1883
kinetics of, 1763
plastic hose for, 937*
storage tanks of, 1730
powders of,
browning reaction in, 945
carbonyls from stale, 912*
dispersibility of, 1472
free fat and dispersibility of, 911*
lactic acid in, 1785
oxygen absorbent for, 912*
phospholipids, isolation from, 903*
preheating milk, effect on flavor of, 911*
properties of, 1038
water hardness, effect on, 1800
properties, physical of, 221-227
proteins in,
adsorbed on fat globules of, 894*
analysis of,
immune globulins, 1233
in serum, 441
in serum, component 5, 895*
Kjeldahl, 367
with orange G dye, 367, 900*
bacterial changes in, 894*
electrophoresis of, 550
evaporated milk, complex with, 895*
fat interaction with, 894*
fractionation of, 1395
ionizing radiations, effect on, 581
quality evaluation of, 388
tests for, review of literature on, 1625
radiation of,
effects on proteins of, 581
preservation with, 468
solar effects of, 395*
radionuclides, ash determinations for, 1276, 1288
stainless steel used with,
cleanability of, 905*
copper adsorption on, 480
starter cultures in,
acetoin, formation by 251
activity of, frozen, 388*
bacteriophage control in, 906*
carbon dioxide production in, 799
coagulation effects of pH in, 589
culture isolation from, 906*
failures, causes of, 906*
frozen and lyophilized, 363, 907*
penicillin effects on, 1391
propagation of, 906*, 907*
terramycin effects on, 1659
steam with, quality production of, 1241

RESEARCH PAPERS:

Variations in the Gross Composition of Milk as Related to the Breed of the Cow: A Review and Critical Evaluation of Literature of the United States and Canada. T. V. ARMSTRONG 1

Continuous Recycling in the Homogenization of Relatively Small Samples. ABRAHAM LEVITON AND M. J. PALLANSCH 20

Standardization of the Harland-Ashworth Test for Whey Protein Nitrogen. S. KUKAMOTO, ROBERT JENNESS, S. T. COULTER, AND R. P. CHOI 28

Influence of Certain Salts, Whey Protein, and Heat Treatment upon the pH and Rennet Curd Tension of Casein Sols. B. R. MAUK AND B. J. DEMOTT 39

Formation of Methyl Ketones from Milk Fat During Steam Distillation or Saponification. STUART PATTON AND B. W. THARP 49

Hardness of Butter. II. Influence of Setting. J. M. DEMANN AND F. W. WOOD 56

High Milk-Protein Bread. L. V. ROGERS AND HELEN H. WELTON 62

Bovine Semen Metabolism. III. Effect of Fructose Concentration, Fructose per Sperm, and Seminal Plasma Factor on Fructolysis. M. FREUND, J. P. MIXNER, AND R. E. MATHER 67

Bovine Semen Metabolism. IV. Effect of Added Hormones and Amino Acids on Fructolysis. M. FREUND AND J. P. MIXNER 74

Bovine Semen Metabolism. V. Influence of Incubation Temperatures on Certain Measures of Fructolysis. M. FREUND, J. P. MIXNER, AND R. E. MATHER 79

Metabolism of Bovine Semen. V. Effect of Various Diluents on the Uptake and Metabolic Utilization of Glycerol-1-C^{14} by Bovine Spermatozoa. W. T. O'DELL, J. O. ALMQUIST, AND R. J. FLIPSE 83

Metabolism of Bovine Semen. VI. Effect of Fructose and Arabinose on the Uptake and Metabolic Utilization of Glycerol-1-C^{14} by Bovine Spermatozoa. W. T. O'DELL, J. O. ALMQUIST, AND R. J. FLIPSE 89

Effect of Repeated Freeze-Thaw Cycles on Survival of Bull Spermatozoa. J. K. SHERMAN 94

Immunological Studies on Fertility and Sterility. III. Effect of Isoimmunization with Blood and Semen on Fertility in Cattle. C. A. KIDDY, W. H. STONE, W. J. TYLER, AND L. E. CASIDA 100

Pathways of Glucose Utilization in Epididymal and Testicular Sperm Cells. S. H. WU, F. F. MCKENZIE, S. C. FANG, AND J. S. BUTTS 110

Genetic and Environmental Portions of the Variation Among Herds in Butterfat Production. F. PIRCHNER AND JAY L. LUSH 115

Selection Indices for Milk and Fat Yield of Holstein-Friesian Dairy Cattle. K. A. TABLER AND R. W. TOUCHBERRY 123

Preparation and Some Basic Properties of Cell-Free Cellulolytic Extracts of Rumen Fluid. R. W. STANLEY AND E. M. KESLER 127

A Comparison of Three Pasture Plans with Grasses for Dairy Cows. E. P. SMITH AND E. A. KEYES 137

Effect of Nitrogen Fertilization or Urea Supplementation upon the Digestibility of Grass Hays. R. A. MARKLEY, J. L. CASON, AND B. R. BAUMGARDT 144

Influence of High Levels of Plant and Animal Fats in Calf Starters on Growth, Feed Consumption, and Palatability. W. J. MILLER, J. L. CARMON, AND H. L. DALTON 153

Utilization of Intravenously Administered Carotene by Dairy Calves. J. D. SCHUH, M. RONNING, AND W. D. GALLUP 159

Influence of Adrènaline Administration on Some Blood Constituents in Holstein Calves. A. B. SCHULTZE 166

Effect of Three Levels of Grain Feeding During the Dry Period on the Incidence of Ketosis, Severity of Udder Edema, and Subsequent Milk Production of Dairy Cows. G. H. SCHMIDT AND L. H. SCHULTZ 170

Influence of Feed upon the Composition of Milk. I. High versus Low Fiber Ration. I. I. PETERS, R. E. LEIGHTON, AND C. A. MULAY 180

TECHNICAL NOTES:

Digestibility of Soybean Hulls and Flakes and the in Vitro Digestibility of the Cellulose in Various Milling By-Products. G. V. QUICKE, O. G. BENTLEY, H. W. SCOTT, R. R. JOHNSON, AND A. L. MOXON 185

Elevation of Plasma Carotenoids by Vitamin A Administration in the Bovine. E. S. ERWIN, R. H. DIVEN, AND B. R. TAYLOR 186

Effect of Glycerol on Lactic Acid Production by Bull Spermatozoa Diluted in Heated Skimmilk and Egg Yolk–Citrate. W. T. O'DELL, J. O. ALMQUIST, AND R. J. FLIPSE 188

Special Diets for the Production of Low Fat Milk and More Efficient Gains in Body Weight. W. L. ENSOR, J. C. SHAW, AND H. F. TELLECHEA 189

SYMPOSIUM: Use and Control of Pesticides and Antibiotics in Milk Production and Manufacturing. Federal Recommendations.

Uses of Insecticides in the Production of Milk. A. W. LINDQUIST 192

Pesticide Residues in Dairy Practice. F. A. VORHES, JR. 196

Preservation of Antibiotics in Milk—Present Status. D. C. GROVE 199

Use of Markers in Veterinary Preparations for the Detection of Antibiotics in Milk. R. E. HARGROVE, R. D. PLOWMAN, AND W. W. WRIGHT 202

OUR INDUSTRY TODAY:

Chemistry of Cheese Flavors. W. J. HARPER 207

OUR ASSOCIATION:

Officers, Committees, and Representatives of the American Dairy Science Association, 1958—1959 214

DAIRY TECHNOLOGY SOCIETY NEWS 6

STUDENT CHAPTER NEWS 12

RESEARCH PAPERS:

Some Physical Properties of Milk. V. Effects of Age on the Viscosity of Pasteurized Fractions of Milk. C. H. WHITNAH, W. D. RUTZ, AND T. G. ALEXANDER 221

Some Physical Properties of Milk. VI. The Voluminosity of Caseinate Complex in Milk, and Reconstituted Sediments. C. H. WHITNAH AND W. D. RUTZ 227

Estimation of the Monoglyceride Content of Milk. R. G. JENSEN AND M. E. MORGAN 232

Free Fat in Foam-Dried Whole Milk. A. TAMSMA, L. F. EDMONDSON, AND H. E. VETTEL 240

Studies on Starter Metabolism. IV. Effect of Various Substrates on the Formation of Acetoin by a Mixed Strain Starter Culture. W. G. MIZUNO AND J. J. JEZESKI 251

A Rapid Spectrophotometric Method for Measuring Cheese Ripening. D. G. VAKALERIS AND W. V. PRICE 264

Effect of Soil Fertility upon the Yield and Nutritive Value of Forages. A Review. GEORGE M. WARD 277

Variation in Some Factors Affecting the Length of Calving Intervals. N. C. BUCH, W. J. TYLER, AND L. E. CASIDA 298

Effect of Some Genetic and Maternal Environmental Variations on Birth Weight and Gestation Length in Holstein Cattle. W. D. FOOTE, W. J. TYLER, AND L. E. CASIDA 305

A Study of Some Possible Genetic Causes of Mummified Fetuses in Dairy Cattle. O. W. DEATON, DURWARD OLDS, AND D. M. SEATH 312

Comparison of Mates of Sires Used Artificially and Naturally in Michigan DHIA Holstein Herds. V. C. BEAL, JR. AND D. E. MADDEN 315

Relations Between Test-Day Milk Production of Holstein Cows. D. E. MADDEN, L. D. MCGILLIARD, AND N. P. RALSTON 319

Relationships Between Plasma Protein-Bound Iodine and Certain Measures of Reproductive and Lactational Performance in Dairy Cattle. H. D. LENNON, JR. AND J. P. MEXNER 327

Studies on the Experimental Production and Prevention of Bloat in Cattle. III. The Effect of Vegetable Oil and Animal Fat on Acute Legume Bloat. HARRY W. COLVIN, JR., J. M. BODA, AND THOMAS WEGNER 333

Observations on the Use of Chromic Oxide for Estimating the Fecal Output of Dairy Animals. W. A. HARDISON, W. N. LINKOUS, R. W. ENGEL, AND G. C. GRAF 346

Supplementation of Cottonseed Hulls with an Alcohol-Urea Preparation. E. R. MORRIS AND O. H. HORTON 353

Determination of Volatile Fatty Acids in Bovine Blood by Isotope Dilution. J. B. HOLTER, S. LAKSHMANAN, AND J. C. SHAW 358

TECHNICAL NOTES:

Maintenance of Active Lactic Cultures by Freezing as an Alternative to Daily Transfer. J. C. SIMMONS AND D. M. GRAHAM 363

Absorption of Colostrum Globulins Introduced Directly into the Duodenum. VEARL R. SMITH AND E. S. ERWIN 364

Comparison of Glass Ampules and Plastic Vials Based on the Nonreturn Rate of Frozen Spermatozoa. E. F. GRAHAM AND W. E. ERICKSON 365

A Comparison of the Orange G Dye and Kjeldahl Methods for Determining Milk Protein. J. M. TREECE, L. O. GILMORE, AND N. S. FECHHEIMER 367

Effect of Hard Water on the Heat Stability of Skimmilk Powder. J. S. E. SARGENT, D. A. BRIGGS, AND D. M. IRVINE..... 1800

Factors Influencing the Metabolic Activity of Bovine Spermatozoa. V. Season. N. T. NAKABAYASHI AND G. W. SALISBURY..... 1806

Fat Digestibility by Dairy Calves. D. T. HOPKINS, R. G. WARNER, AND J. K. LOOSLI.... 1815

Changes in Thyroid I^{131} Release Rate During Growth in Holstein, Brown Swiss, and Jersey Calves at Constant Environmental Temperatures (50 and 80° F.). H. D. JOHNSON AND A. C. RAGSDALE..... 1821

Observations on the Nutrition of Bacteroides Succinogenes—A Ruminal Cellulolytic Bacterium. M. P. BRYANT, I. M. ROBINSON, AND HILDA CHU..... 1831

Activation and Cell-Surface Localization of Certain β-Glucosidases of the Ruminal Flora. KENDALL W. KING..... 1848

Effects of Dietary Diethylstilbestrol on Several Biochemical Factors of Rumen Ingesta. C. B. BROWNING, F. C. FOUNTAINE, AND E. E. BARTLEY..... 1857

Changes in Type Ratings of Holstein Cows Due to Age, Season, Stage of Lactation, Classifier, and Year. C. J. WILCOX, R. E. MATHER, K. O. PFAU, R. F. GABRIEL, AND J. W. BARTLETT..... 1867

Effect of a Simple High-Fiber Feed on Dairy Calves. J. M. WING..... 1877

TECHNICAL NOTES:

Temperature Increase Due to Homogenization. H. L. MITTEN, JR. AND H. L. PREU.... 1880

Some Characteristics of the Glyco-Marcropeptide of Casein—A Product of the Primary Rennin Action. J. R. BRUNNER AND M. P. THOMPSON..... 1881

Formation and Removal of an Iridescent Discoloration in Cleaned-in-Place Pipelines. O. W. KAUFMANN AND P. H. TRACY..... 1883

Preparation of a Standard for Citric Acid Analysis. J. R. MARIER AND M. BOULET.... 1885

The Metabolism of Serine-3-C^{14} by the Lactating Sheep Mammary Gland. R. D. McCarthy, N. P. Wong, and O. W. Parks 1886

Our Industry Today:

Brucellosis Eradication Moves Ahead at Accelerated Pace. C. G. Bradt 1888

Our Association:

Report to the American Dairy Science Association by Its Representative to the National Research Council, 1958-1959. W. E. Krauss 1892

Book Review 1895

DECEMBER, NO. 12

People and Events 3

Research Papers:

Preparation of Calcium-Sensitive α-Casein. C. A. Zittle, J. Cerbulis, L. Pepper, and E. S. DellaMonica 1897

Some Esterases of Cows' Milk. T. L. Forster, H. A. Bendixen, and M. W. Montgomery 1903

Total Monoglyceride Content of Some Dairy Products. R. G. Jensen, G. W. Gander, and A. H. Duthie 1913

Inhibition of Certain Types of Bacterial Spoilage in Creamed Cottage Cheese by the Use of a Creaming Mixture Prepared with Streptococcus citrovorus. D. W. Mather and F. J. Babel 1917

Vitamin B_{12} in Wheys Prepared by Coagulating Milk with Acid and Rennet. E. B. Collins and Makoto Yaguchi 1927

Relations Between Weight at First Calving and Milk Production During the First Lactation. R. H. Miller and L. D. McGilliard 1932

Endocrine Activity of Corpora Lutea from First-Service and Repeat-Breeder Dairy Heifers. W. D. Foote, R. G. Zimbelman, R. G. Loy, and L. E. Casida 1944

Production and Growth of Dairy Cows Reared on Silage or Hay Rations. J. W. Thomas, J. F. Sykes, and L. A. Moore 1949

Intake and Value for Milk Production of Oat Silages Ensiled at Three Stages of Maturity and Preserved with Sodium Metabisulfite. F. A. Martz, C. H. Noller, D. L. Hill, and M. W. Carter 1955

A Comparison of Zero, Moderate, and Liberal Levels of Grain Feeding for Lactating Cows on Permanent, Improved, and Supplemental Pasture. D. R. Dowden, D. M. Seath, B. F. Brown, and D. R. Jacobson 1960

Estrogenic Activity in Milk of Cows and the Bile of Calves Fed Low Levels of Diethylstilbestrol. E. H. Herrick, Carlton Paulson, Robert Baron, and C. B. Browning 1966

The Physiological Behavior of Iron in the Calf. Sam L. Hansard, L. E. Foote, and George T. Dimopoullos 1970

Studies on the Relationships Between Rumen Acids and Fat Metabolism of Ruminants Fed on Restricted Roughage Diets. P. J. Van Soest and N. N. Allen 1977

Replacement Therapy in Lactating Thyroparathyroidectomized Rats. R. Von Berswordt-Wallrabe and C. W. Turner 1986

A Critical Study of Energy Determination in Fresh and Dried Cow Feces. H. Fenner and J. G. Archibald 1995

Technical Notes:

Cold Shock of Epididymal Spermatozoa. G. Bialy and V. R. Smith 2002

Source of Iodine in Salt Affects Protein-Bound Iodine Content of Bovine Blood Plasma. W. A. King and J. Lee, III 2003

Symposium on Cottage Cheese:

Recent Developments in Cottage Cheese Manufacturing Procedures. W. V. Price, A. M. Swanson, and D. B. Emmons 2005

Cottage Cheese Cultures. F. J. Babel 2009

Factors Affecting the Yield of Cottage Cheese. W. A. Cordes 2012

Keeping Quality of Cottage Cheese. N. C. Angevine 2015
